Spiritual Care & Chaplaincy provision at Bowmere Hospital

Information for Service Users & Carers

What is Spiritual Care?

Spiritual Care encourages people to look at important issues such as anxiety, guilt, forgiveness, anger, dignity, dependency, self-worth, loneliness, identity, belief and trust.

It also provides people with the opportunity to express their feelings, fears, opinions and questions about inner pain, relationship worries, the meaning of illness.

- **Why is this happening**
- **Why doesn't God help me**
- **Is there anything after this life**
- **I am so angry**
- **I will never be able to forgive myself.**

These questions and comments, linked with important life issues, are approached carefully and sensitively with each service user as part of their spiritual health care.

It is hoped that service users will be helped to face their problems and difficulties with honesty and integrity, as all feelings need to be recognised and, if possible, brought out into the open.
